V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	4-8	YES

Inventive step (IS)	Claims	6, 7	YES

2. Citations and explanations

- Document US-A-2002/0076271, Beranger, discloses a fastening member according to claims 1 to 3. In particular, it describes flexible tabs having free ends for engaging a retaining recess (defined by shoulder 144, or - see description page 3, line 15 of paragraph 0027 - a groove) accessible by axial engagement, thereby preventing rotation and translation (see paragraph 0028, last sentence), hence acting as an anchoring device.
- The claims define details of an entirely trivial nature.
- The combination of claims 6 and 7 is not suggested by the prior art.
